RAHUL SAHANI

PYTHON DEVELOPER | BACKEND APIs | AUTOMATION

New Delhi, India | me.rsahani@gmail.com | github.com/Rahul-Sahani04 | rsahani.space

PROFESSIONAL SUMMARY

Software developer with hands-on Python experience building REST APIs, web-scraping workflows, and automation tools. Worked with FastAPI, SQL databases, browser automation, data processing, and integrations, alongside broader backend and full-stack development. Comfortable breaking down problems, debugging applications, and working with Git-based projects. Interested in junior Python, backend, API, and automation engineering roles.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL
Python & Backend: FastAPI, RESTful JSON APIs, Uvicorn, web scraping, automation, exception handling, modular application structure
Data & Databases: PostgreSQL, MongoDB, Pandas, CSV data processing, Google Sheets API
Tools & Platforms: Git, GitHub, Selenium, Streamlit, SMTP, Docker, AWS EC2, Postman
Additional Development: Node.js, Express.js, React, Next.js, Spring Boot

SELECTED PYTHON PROJECTS

Job Scraper & Email Automation | Python, Selenium, Pandas, Streamlit, Google Sheets API, SMTP | github.com/Rahul-Sahani04/JobScraperV2

- Developed a job collection workflow to gather listings from Naukri and Shine using course- and keyword-based searches.
- Organised scraping, matching, and email distribution into separate modules, with HTML email templates and Google Sheets integration.
- Added checkpointing, retry handling, backups, and browser cleanup to recover from interrupted runs and handle failed operations.

Fortune Cookie REST API | Python, FastAPI, Uvicorn, PostgreSQL | github.com/Rahul-Sahani04/Fortune_Cookie_FastAPI

- Built a FastAPI service exposing JSON endpoints to retrieve a random fortune, list available messages, and delete a message by ID.
- Configured an ASGI server with Uvicorn and database connectivity using psycopg2; externalised configuration through environment variables.

MikoChan Telegram Bot | Python, Telegram Bot API, Gemini AI | github.com/Rahul-Sahani04/MikoChan-Telegram-Bot-V2

- Implemented bot commands for anime search and detailed information retrieval, including paginated navigation and cancellation flows.
- Integrated external anime data and streaming-link retrieval into a conversational Telegram interface.

PROFESSIONAL EXPERIENCE

Software Developer | Printeast | India | Apr 2026 - Jun 2026

- Contributed to software development in a production environment, including implementation, debugging, and delivery of application features.

EDUCATION

Master of Computer Applications (MCA) | IITM Janakpuri | 2024 - 2026
Bachelor of Computer Applications (BCA) | IITM Janakpuri | 2021 - 2024

CERTIFICATIONS & ACHIEVEMENTS

- Wipro Java J2EE Certification
- Responsive Web Design Certification, freeCodeCamp
- 1st Place, CSS Battle, MATRIX Internware IITM (Oct 2023); 1st Place, ODE TO CODE (Mar 2024)
